

Ways to Use RingCentral Meetings

An easy-to-use video and web conferencing tool is available to Queens users in RingCentral Meetings. Others join with a link to your RingCentral Meeting, followed by a quick download, or by dialing a number. Participants do not need a RingCentral or Zoom account to join your meeting. If you have had a Zoom license, you can now access similar features through RingCentral Meetings **without** a Zoom license.

Overview of Features

- Video and audio
- Chat pane
- Host and/or participants can share their screen
- Participants can draw and type on a shared screen
- Breakout rooms
- Polling
- Meetings can be recorded
- No need to collect participant IDs
- Join by computer, mobile device, or telephone
- Non-Queens users can join a meeting

Teaching Applications

- Office hours with students in another location (talk through an issue, show how to use an application)
- Small-group collaboration among students in different locations
- Make-up activities for students with university recognized absences (e.g., group work, workshop)
- Real-time class meetings (per the Faculty Handbook, dates and times of any required synchronous meetings in online and hybrid courses must be listed in the Registrar's course schedule when students register; adhere to the listed course modality as defined by percentages of instructional time in the Faculty Handbook)
- Guest speaker from another city or time zone (in a physical classroom via webcam, or in an online classroom)
- Hold a learning activity with a class at another institution
- Acquaint students with how to use Zoom technology as relevant to job settings

Research Applications

- Work out complex sticking points in real time with research collaborators
- Conduct more engaging interviews with video
- Do a SoTL project with colleagues at another institution
- Give a live presentation remotely when you experience travel delays or disruptions
- Hold an online-only conference

Service Applications

- Run fuller committee or department meetings when some members are at remote locations
- Expand a partnership to distant organizations or increase communication with community organizations
- Record real-time meetings or presentations and make them available later for other stakeholders online
- Video interviews

Download, Installation, and Getting Started

Resources for getting started with RingCentral Meetings are posted on [Queens ITS RingCentral resource page](#).

- Download **RingCentral Meetings** to your computer and/or mobile device from the [RingCentral Downloads page](#). Download links are available for Windows, Mac, Android, and iOS. Once download is complete, Run the installation file. After installation, you'll see the RingCentral Meetings icon on your dock or system tray.
- [Log in to RingCentral Meetings with Single-Sign-on](#).
- → Consult the [RingCentral Meetings Quick Start Guide](#) or the [full RingCentral Meetings User Guide](#) for illustrations and steps for scheduling and joining meetings, as well as advanced features.
- Participants can [Install RingCentral Meetings using the Meeting Invitation Link](#) that you will email them and/or place in your MyCourses course site.

Alt + S	Share—Start/Stop	Command(⌘) + Shift + S
Alt + H	Chat—Open/Close	Command(⌘) + Shift + H
Alt + U	(Users) Participants panel—Open/Close	Command(⌘) + Shift + U
Alt + R	Recording—Start/Stop	Command(⌘) + Shift + R
Alt + Q	(Quit) End meeting for all	Command(⌘) + Shift + Q
Alt + F	Full screen—Enter/exit	Command(⌘) + Shift + F

Enable Features of Your Meetings through Settings

To use some of the available features, such as breakout rooms, you may need to adjust *meeting* Settings. Go to <https://service.ringcentral.com>. [Log in to RingCentral Meetings with Single-Sign-on](#) using your Queens email. Click **Settings**, then click **Meetings**. A partial list of settings that can be toggled on and off is provided below.

Basic Features—Selected Settings

Feature	Explanation
Chat	Allows meeting participants to send a message visible to all participants
Private chat	Allows meeting participants to send a private 1:1 message to another participant
Auto saving chats	Automatically save all in-meeting chats so hosts do not need to manually save the text of the chat after the meeting starts.
Play sound when participants join or leave	Plays sound when participants join or leave
Co-host	Allows host to add co-hosts. Co-hosts have the same in-meeting controls as host.
Polling	Adds 'Polls' to the meeting controls. This allows the host to survey the attendees.
Annotation	Allows participants to use annotation tools to add information to shared screens
Whiteboard	Allows participants to share a whiteboard that includes annotation tools
Remote control	The person who is screen-sharing can allow others to control the shared content
Nonverbal feedback	Participants can provide feedback or opinions by clicking icons in Participants panel

Advanced Features—Selected Settings

Feature	Description
Breakout room	Allows host to split meeting participants into separate, smaller rooms
Closed captioning	Lets host type closed captions or assign a participant/3rd party device to add them.
Screen sharing	Allows host and participants to share their screen or content during meetings
Attention tracking	Lets the host see an indicator in the participant panel if a meeting/webinar attendee does not have RingCentral in focus during screen sharing.
Show a "Join from your browser" link	Allows participants to bypass the RingCentral application download process, and join a meeting directly from their browser. Workaround for participants who are unable to download, install, or run applications. Meeting experience from the browser is limited.

Modify Your Personal Settings through Your Desktop App

You can adjust your *personal* settings through the Desktop RingCentral Meetings App. Open Meetings for Desktop and click **Settings**. You'll see tabs for General, Audio, Video, Recording, etc. This where you can check "Touch up my appearance" and [specify where recorded files are downloaded when a meeting ends](#).
